Sir,

Sub: M/s Nagineni Natural Resources Pvt. Ltd - Evacuation of 100MW Solar PV Power Project at Komatikuntla/Chinna Mallepalli/G.C.Palli (V), Putlur (M), Anantapur (District) - Connectivity/Evacuation Approval

Ref: Lr.No.ED(Plg.RAC&Rcf)/ADE(C)/F. Nagineni-ATP/DNo.527/13.
Dt:28.08.13

We were given the Connectivity/Evacuation permission under the proposed **220/132 KV Tirumalaipally** Sub-Station which is more than **30KM** away from our plant. The following are the problems with this permission:

- 1) **This is a proposed Sub-Station at Tirumalaipally**, not already existing. We were not given any clarity on when we can expect this becoming operational!!
- 2) **This proposed sub-station is more than 30KM away from our plant.** It is not only **expensive** but also **time consuming** to lay the 220KV line. As you know it is very difficult to get the Right Of Way (ROW) from the private parties by the developer. **This will have huge impact on viability of the project.** The viability of the project is both time and cost sensitive.

As mentioned in our Application for Connectivity, we have signed **MOU** ([www.nnrgroup.com/Downloads/NNR Documents/SolarPower MOU.pdf](http://www.nnrgroup.com/Downloads/NNR_Documents/SolarPower_MOU.pdf)) with the Government of Andhra Pradesh during the investment summit in 2012, **to invest Rs.2,000/- crores and commission the Solar Power plant by 2014.** As per the MOU, we have been working hard on the project to meet the time lines. Among other thing, **we already acquired the required land and converted into non-agriculture** ([www.nnrgroup.com/Downloads/NNR Documents/AnantapurLandConversionProceedings BaW.pdf](http://www.nnrgroup.com/Downloads/NNR_Documents/AnantapurLandConversionProceedings_BaW.pdf)). Now we have been focusing on financial closure. **It is very difficult for us to get the financial closure without clarity on Connectivity.**

At the time of signing MOU, the Government of AP promised, both orally and in writing, all the help required for the Project. Based on these promises and MOU, we went ahead and spent both time and money on this project. We would incur the following losses if we could not complete this project in time:

- 1) the time and money already spent on this project
- 2) opportunity cost
- 3) expiry of incentives
- 4) cost overruns
- 5) credibility & track record

Hence we can minimize these unnecessary losses and commission the project in time with Connectivity/Evacuation permission on an **existing nearest Sub-Station** that can handle our project capacity.

We would really appreciate if you could take our concerns/issues seriously and make the necessary changes in the Connectivity/Evacuation permission to help our project complete in time. Commissioning this project in time is not only in the best interest of
